Curriculum Facts

Our program follows the 'My Time, Our Place' Framework. This curriculum focuses on collaboration between the children and educators to provide play and leisure opportunities that are meaningful to children and support their wellbeing, learning and development. Our environment pays close attention to the needs and interests of individual children. An emphasis is put on children having choice and control over their learning as they collaborate with friends and educators to extend their life skills and develop dispositions towards community participation.

Educators

The nominated supervisor is responsible for the overall implementation of the program at The Scots College BASC. The nominated supervisor is also the first point of contact for parents and carers to communicate with regarding the program and matters affecting their son/s.

Educators are employed using a minimum ratio of 1:15 and all educators hold a Working with Children Check. At least one educator on the premises will hold a current First Aid Certificate and child protection qualification. All educators are recognised responsible people. Additional staff are rostered to oversee child supervision between after SEA and BASC.

Our educators are experienced in the provision of care and recreational activities for children. They role-model positive interactions in an energetic, empathetic, caring, fun and reliable way. They extend children's knowledge through scaffolding learning and creating a program which supports children's interests.
