

The Scots College HSC and Senior School Achievements 2022

The Scots College
Sydney Australia

Our 2022 HSC Achievers

Dear College Community

It was wonderful to be able to celebrate the achievements of our Class of 2022 at Speech Day and the Year 12 Formal in recent weeks, and today, I am pleased to be presenting our HSC and Senior School Achievements highlights package.

Across all areas of College life – Academic, Co-Curricular and Sport, this year group has performed incredibly well. Of course, true success is not only measured by marks, victories or status. True success is concerned with the kind of person one becomes and the positive impact one makes in the world. I am confident that these young men have a firm foundation in which to continue to learn, lead and serve in their communities, workplaces and families.

These achievements would not be possible without the hard work, dedication and support of our staff, parents and broader community. Most importantly this would not be possible without the effort, teamwork and determination of the 2022 Year 12 cohort.

At The Scots College, we value The Quest for Excellence and Leadership Through Teams. There are many boys whose names and images do not appear in this publication who have achieved personal and team excellence by serving in the Chapel choir, playing in a sporting team, achieving a rank in Cadets or working very diligently to get their best ATAR. Congratulations, you are all part of this story of excellence.

Scots to the fore!

Dr Ian PM Lambert
Principal

Outstanding Pathways

Finn Bennett

Worth the Risk – Taking Ownership

In early 2020, Finn decided to combine his HSC pathway to pursue his ambition to become a carpenter. He began his apprenticeship in Year 11, giving him practical work experience and an advantage in completing his studies 18 months ahead of his apprenticeship cohort.

Finn combined his studies at Scots with a TAFE Certificate III in Carpentry, and part-time employment with a local construction company, Robert Plumb. He recognised that taking a non-ATAR pathway might be seen by some as a risk, but insisted “For me, it was absolutely the right choice. The Applied Entrepreneurship Program gave me the opportunity to take ownership of my studies through its flexible curriculum, rather than studying for a one-size-fits-all exam. I got to immediately apply my knowledge in authentic, real-life work scenarios. It was a win-win for me.”

Finn is now in the final stages of completing his TAFE studies while working full-time as a carpenter with Robert Plumb.

Finlay Ferris
Proxime Accessit to the Dux

Prodigious Flair for Analysis

Award winner of the Carol Manners Essay Competition, Finlay pulled out all the stops in his essay, displaying a typically prodigious flair for description and analysis. He wrote about two Roman poets he studied in his Latin Extension course, Catullus and Horace, in response to the question: To what extent does the poetry of Catullus and Horace betray an awareness of themselves as poets?

This award is organised by the Classical Languages Teachers Association for the best essay written on texts studied in either the HSC Latin Continuers or Extension courses. This competition is promoted to Year 12 Latin students across New South Wales as an opportunity to compete for a cash prize and for the essay to be published in the scholarly journal, *Classicum*.

There is no doubt that Finlay’s deft and insightful investigation will turn heads in the classical world as he commences his studies at The University of Sydney.

Jack Hawthorne

Guitar Success Straight from School

Jack is an impeccable musician and a fine young man. His humility and talent often draw comment, even by cursory observers, but for those who know him best, it is perhaps his work ethic that garners the greatest respect. Jack has dedicated countless hours to deliberately practice as a guitarist and as an improvising musician, which has been recognised by acceptance into the prestigious Sydney Conservatorium of Music to study jazz. This place was offered after a rigorous audition process that rarely affords guitar players success straight from school.

Over recent years at the College, Jack has performed with Big Band 1, Impulse! Jazz Combo and Rock Band 1 on both guitar and bass. He also held his own as a soloist with the professional musicians of The Scots College All Star Big Band, established in Term 2 this year. As recognition for his exemplary HSC performance program across the Music 2 and Music Extension courses, Jack was nominated for NSW Education Standards Authority’s ENCORE showcase concert. Look out for Jack on the jazz scene as a rising young star – he is sure to impress.

From the Staff

An enormous congratulations to the Class of 2022 on their work ethic and ability to adapt to a changing environment. I have been honoured to be a small part of their journey and watch them grow into fine young men. Many have been given early entry into universities both in Australia and abroad. I am particularly proud of the significant improvement in the total number of Band 5 and 6s achieved. I sincerely congratulate each and every young man on his progress and look forward to their continued success in life after school.

Mrs Peta Austin

Director of Studies

Looking back at 2022, we are immensely proud of the hard work the students have put into their Co-Curricular Activities and the noteworthy achievements they have accomplished throughout the course of the year. It has truly been a blessing to witness the exceptional talent, unwavering commitment and pursuit of excellence the Year 12 boys have put into their final performances at the College. We hope they look back at their time, participating in Co-Curricular Activities, with equal pride, respect and appreciation for the skill sets they cultivated over the years at Scots. Wishing them all the best in their future endeavours.

Ms Jeannae Bierstedt

Acting Director of Co-Curricular

The energy and spirit with which the Class of 2022 worked towards and tackled the HSC was impressive and plants a flag for future generations of Scots boys. The group's all-round contribution to College life has been incredible and we will long-remember the high standards that they set for themselves. Well done boys!

Mr James Bowles

Head of Students (7-12)

The Year 12 students were able to represent the College, their association, state and country in Sport this year. They were champions on the field, in and on the water, and on the court and courses, but were also instrumental as supporters for their cohort and the College. We are proud of the collective achievements of the Class of 2022. To witness the boys in blue and gold support and encourage each other will long be remembered. These young men, under the guidance of exceptional coaches and through the structure and development of world-class programs, have taken each opportunity to lead from the front, and when they were called to represent, represent they did in 2022. Thank you, Year 12!

Ms Claudia Brin

Acting Director of Sport

We are incredibly proud of what the 2022 Year 12 cohort has achieved within our boarding community; their hard work, kind and empathetic nature as well as strength of character, make their mark in our history. As a group, they have brought back many of the traditions that have been put on hold in previous years and provided exceptional role modelling for those younger than themselves. A huge congratulations to our leaders, Head Boarder Prefect, William Purvis (Aspinall) and his team, including Head Boy, Jack Hawthorne (Aspinall), Hamish Beveridge (Fairfax), Jayden Leong (Royle) and Edward McDonald (Kirkland). This group graduates with our best wishes and knowing that they are always welcome back in our community.

Mr Justin McInnes

Director of Boarding

The Class of 2022 had an outstanding final year. As the first group post-COVID-19, they were in the fortunate position to have a year full of events. This group showed exceptional leadership in re-establishing College traditions that many younger students had not yet learned. Throughout their time in the Senior School, this group of fine young men have performed at the highest level in their Academics, Sport and Co-Curricular Activities and will be remembered for the excellence they displayed. On behalf of the staff of the Senior School, I would like to thank the Class of 2022 and wish them all of the best in their future endeavours.

Mr Graham Pattison

Acting Head of Senior School

The Class of 2022 successfully led the re-establishment of positive student culture as our community came together again this year. From Term 1, which was still clouded in much uncertainty, due to restrictions, these boys displayed their resolve and team orientation as they modelled the attributes of fine young men. They sought to lead and serve each other and the greater student body in the rebuilding of in-person relationships and collegiality across year groups. The boys fought to uphold traditions long associated with life at the College. I congratulate these boys on their successes throughout the year, and for their final results, but also on the impressive cultural impact they have had on the College as a whole.

Mr Paul Vickers

Director of Music and College Improvement

The Quest for Excellence

How do you return to 'normal' after schooling through a pandemic? What does normal now look like?

These are a few of the many questions the boys and teachers faced over the past two years. In many ways, 2022 was a moment to relearn and refine what we were doing in the classroom. Staff and boys focused on 'brilliant basics' to ensure we were rebuilding the strong foundations essential for success. With a deep understanding of the time demands on the boys in the Academic, Sport and Co-Curricular Activities areas we worked at making every moment

in and out of the classroom count. Staff worked tirelessly to deliver well-structured lessons and engaging workshops, with a focus on examination techniques to the Year 12 cohort. In return, the boys displayed how collaboration and academic leadership can raise the standard and encourage others to follow. It has been a privilege to see the positive impact some of the academic initiatives developed by the Senior boys have had on the boys in Years 7 to 10.

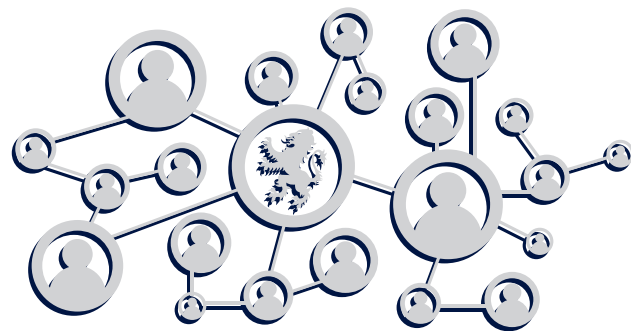

Mrs Peta Austin
Director of Studies

Teaching Excellence

At the founding of The Scots College in 1893, the moderator of the Presbyterian Church described its teachers as those who had won the highest honours in university, knew how to teach Australian boys, and saw their vocation as "a work of faith, a labour of love and a patience of hope".

In 2022, Scots teachers continued to pursue The Quest for Excellence and our vision for Reinventing Education. Through a range of applied professional learning programs and courses of study, they have been developing the technical skills of the classroom and the deeper elements of expertise: vocational clarity, philosophical depth and entrepreneurial thinking. We formed the Research-Invested Schools network, bringing together over 40 schools committed to developing teaching expertise through research. Our five Master Teacher Fellows continued to mentor colleagues in experiential learning and character education. A number of staff undertook further study up to the Doctor of Philosophy (PhD) level, with presentations delivered at conferences around the world. Most excitingly, our second cohort of well-trained new Christian teachers graduated through the Teaching Schools Alliance Sydney.

“
... saw their vocation as a work of faith, a labour of love and a patience of hope.”
